

KJL Update March 16, 2020

The KJL team is continuing to respond to the ever-changing dynamics of the COVID-19 crisis. Our team continues to be in contact with the Governor's office and our legislative leaders to assess and respond to the new temporary policies and procedures being implemented to help slow the spread of the virus.

The Governor and the legislature have worked with and initiated the assistance of many of our clients that are critical to the state response in order to help facilitate the measures necessary for public safety. We are proud to represent so many organizations and individuals that are stepping up to be of service to the citizens of our state.

As of today, by order of the Boji Tower management, the KJL office will not be open to visitors for the remainder of the week. The Boji management team will be reviewing this restriction on a week by week basis. Further, this morning Governor Whitmer has issued Executive Order 2020-09 closing bars and restaurants other than for delivery and carryout, as well as cafes, coffee houses, clubs, movie theaters, indoor and outdoor performance venues, gyms, fitness/exercise studios, spas and casinos until 11:59PM March 30th.

Restaurants can still offer food and beverage through delivery, drive-through, walk-up and window service. Restaurants may allow only five people inside at a time to pick up orders and they must stay six feet apart.

At this time the legislature is still scheduled to meet on Tuesday at 10:00 am for both chambers. Most committees have been canceled, with the exception of:

- House Appropriations
- House General Government
- Senate Appropriations Subcommittee on Justice and Public Safety

The KJL team encourages each of our clients to reach out to any one of us with questions or concerns. For a contact list go to: www.kjlteam.com.

In the meantime, we urge you to continue to follow the guidelines set forth to best protect yourself and your family:

- If you think you have been exposed to COVID-19, call your health care provider. If you do not have a health care provider, call the nearest hospital.
- Wash your hands often with soap and warm water for 20 seconds. If not available, use hand sanitizer.
- Avoid touching your eyes, nose, or mouth with unwashed hands.
- Cover your mouth and nose with a tissue or upper sleeve when coughing or sneezing.
- Avoid contact with people who are sick.
- If you are sick, stay home, and avoid contact with others.
- Replace handshakes with elbow bumps.
- Stay at least 6 feet away from others when in a public setting.
